For using with an unlisted developer, you can use times and dilution data of Ilford FP4.

Structure of layers :
protective layer
sensitive emulsion
subbing
polyester base
antistatic backlayer

Loading :
load 135 under shadow and take 6 empty view before shooting your first picture.
120 roll films can be loaded as usual.

Standard sizes :
120/620 spool (production scheduled for 2019)
135 recycled cassette (no DX code) – 24 exp.
Use of recycled cassette is not recommended with full automatic/motorized camera.
custom sizes available on demand

Usage tips :
The diffusion effect can change depending of the light conditions, it is also much stronger in 135 than in 120 format.

We take great care in the manufacture of each Film. If you are unhappy with the film for any reason please get in touch and we will do our best to help. In case of manufacturing defect, films will be replaced by new ones. No other claims for compensation will be accepted.
